... the shi* hits the fan.

In mindestens 12 Ländern wurden Mobilfunkmasten angezündet, Arbeiter*innen belästigt, angegriffen oder sogar entführt.

The image is a collage of news snippets from various media outlets, illustrating the global impact of 5G conspiracy theories and attacks on telecoms workers during the COVID-19 pandemic.

- Handelsblatt**: A German newspaper snippet showing a headline about 5G towers catching fire due to COVID-19 conspiracy theories.
- The Guardian**: A UK newspaper snippet with a large banner reading "Support the Guardian" and a headline about 5G conspiracy theories fueling attacks on telecoms workers.
- NOS**: A Dutch news website snippet showing a photo of a burning 5G tower and a headline about 5G towers catching fire across the Netherlands.
- BBC News**: A UK news website snippet with a headline about conspiracy theorists burning 5G towers, claiming a link to the virus.
- CNN**: A US news website snippet with a headline about technicians held in Peru over false 5G Covid links.

The snippets highlight the international nature of these incidents and the significant disruption they caused to telecommunications infrastructure and workers.

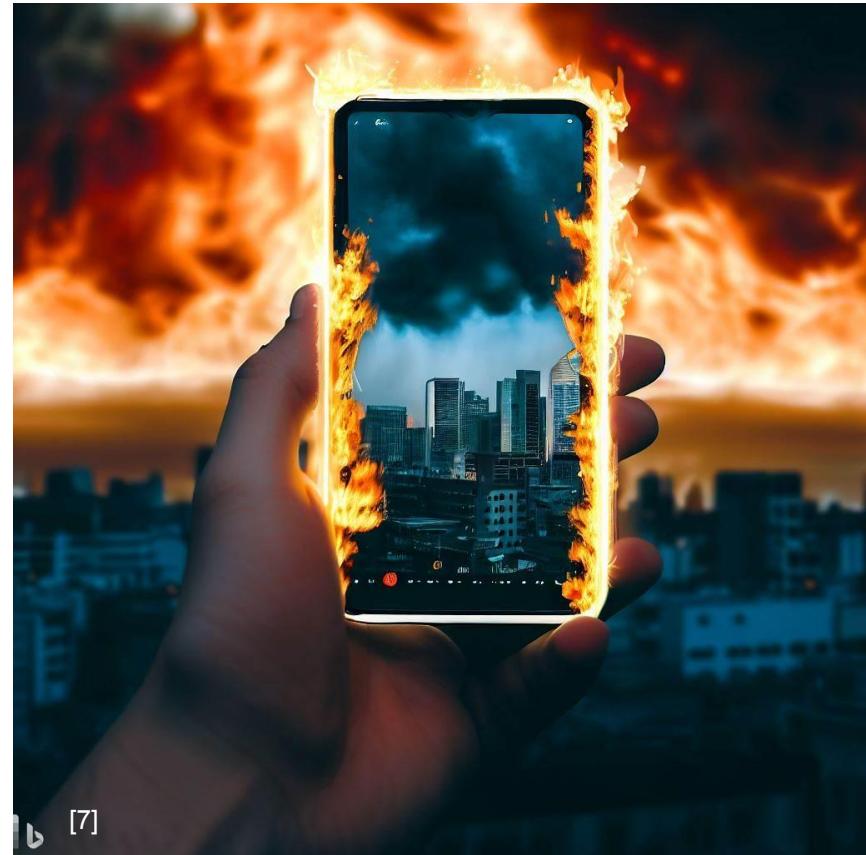

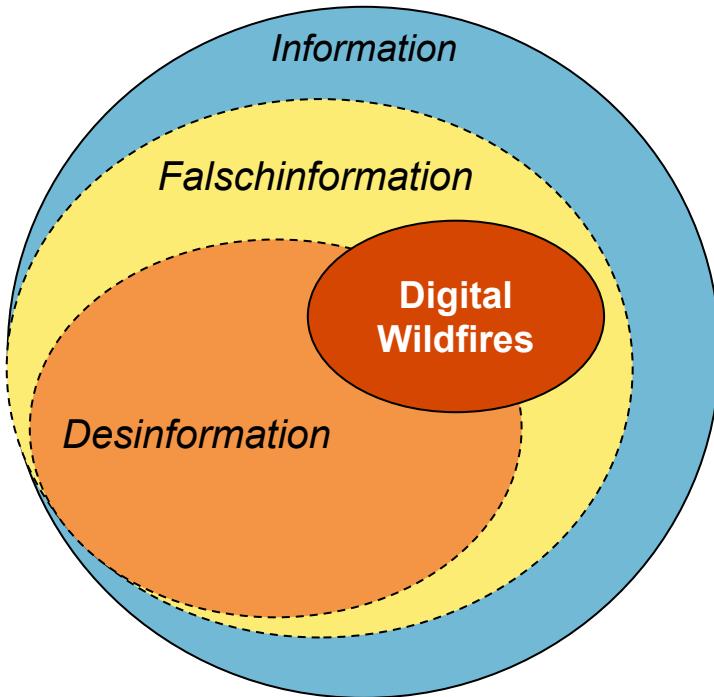

Weltweit ereigneten sich zahlreiche Brandanschläge und Übergriffe zwischen April und Juni 2020.

... nur Vorfälle, von denen wir aus der Presse wissen ...

Digital Wildfires sind **Ereignisse** in sozialen Medien, bei denen sich provokative Inhalte schnell und weit verbreiten und erheblichen (physischen) Schaden anrichten.

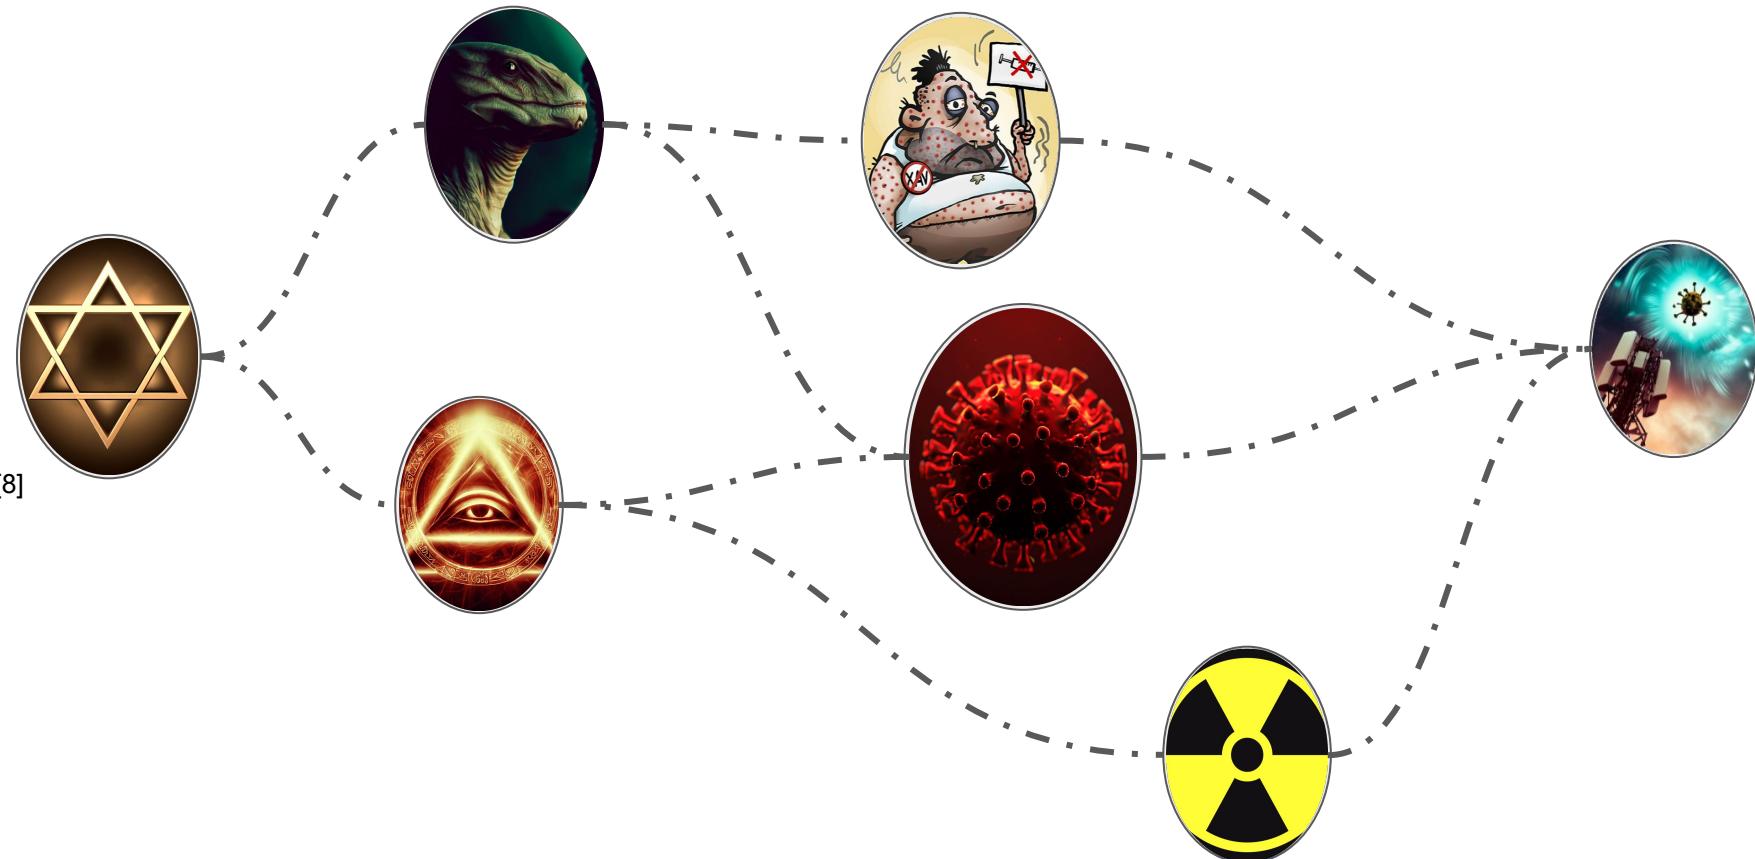

Wir wollen **verstehen und vorhersagen**, wann eine Falsch- oder Desinformation zu einem Digital Wildfire wird.

Um Digital Wildfires zu isolieren und zu untersuchen, müssen riesige Datenmengen gesammelt und klassifiziert werden.

Beobachtung I: Es gibt eine sich ständig verändernde Landschaft mit einer Vielzahl von **aufeinander aufbauenden**, teils uralten Verschwörungmythen.

Beobachtung II: Sich widersprechende Erzählungen heben sich nicht auf, im Gegenteil, sie verstärken die übergeordneten Erzählungen.

Quantum Nano Layer BioShield

The QNL BioShield provides the ultimate protection for you, your family, and your home thanks to a portable Quantum Radiation Balancing system which can be carried or placed near a mobile phone, or any other radiation electrical devices.

The USB stick acts as a carrier for the Quantum Nano Layer technology for the balance and harmonisation of the harmful effects of all forms of imbalanced radiation. The QNL BioShield is actively protecting the human body 24/7 within a sphere of 8 meters in diameter, whereas when the QNL BioShield key is plugged into a power source, the sphere of active protection expands from 8 meters to 40 meters in diameter, protecting all in its field. In this illustration, a woman is sitting on the grass with a laptop, and a green glowing sphere surrounds her, indicating the protective field of the BioShield.

The QNL BioShield Quantum Radiation Balancing technology is the culmination of several decades of dedicated research by Prof. Dr. Ilija Lakicevic in multiple countries which resulted in the so called I-Change Conscious Creation Technology, with its first expression being the QNL BioShield. The Quantum Nano Layer is imprinted using a proprietary method utilising the inventor's conscious intent, which provides an instant balance of all forms of imbalanced radiation, including 5G, microwave, in the
